Workflow Exploration Report

Unsplash Lite Dataset Download

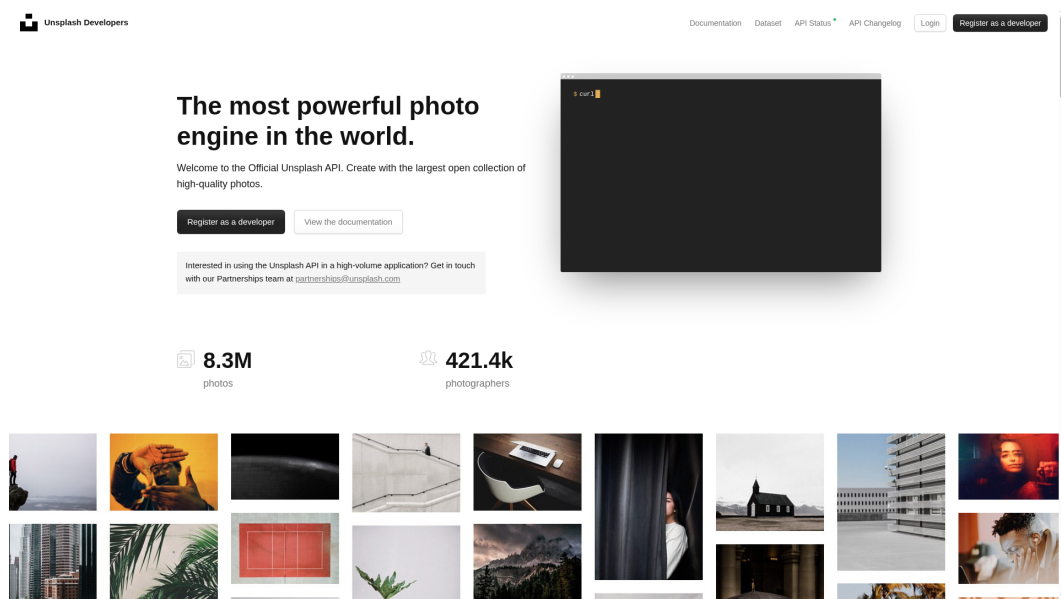

Website: <https://unsplash.com>

Feature Area: Developer Portal

Goal: Access and download the open-source Lite dataset for research or development.

Generated: April 07, 2026 at 08:54 AM

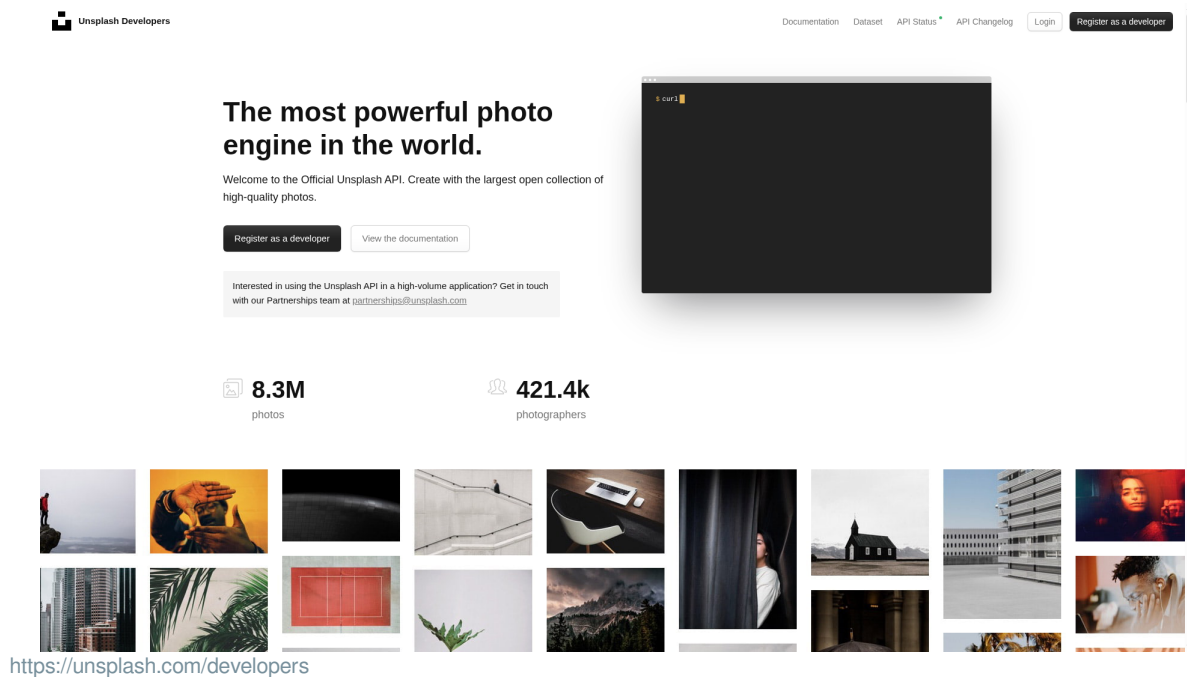

The AI successfully navigated the Unsplash Developer portal to locate the open-source Lite dataset and review API documentation. While it successfully accessed the dataset section and external status monitoring, certain developer management features were restricted by automated security filters.

Step-by-Step Walkthrough

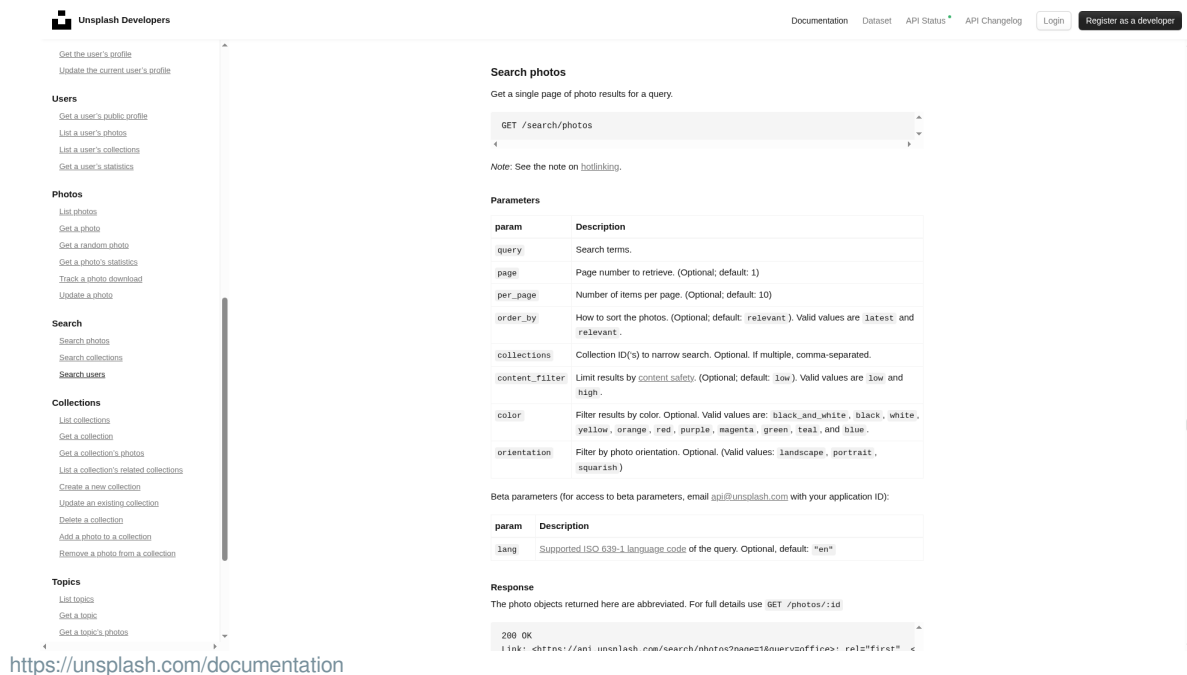

1. Unsplash Developers Landing Page

The AI navigates to the main developer portal to begin the workflow.

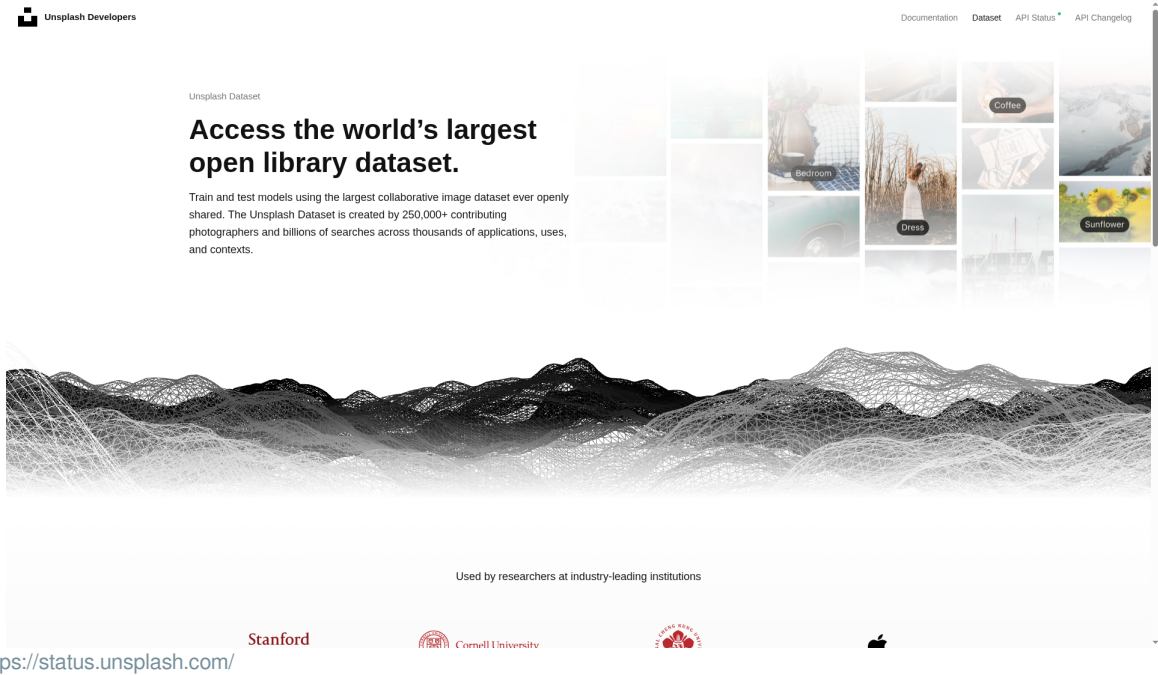

2. API Documentation for Search Photos

The AI accesses the documentation to review request parameters and response schemas for the search endpoint.

3. External API Status Dashboard

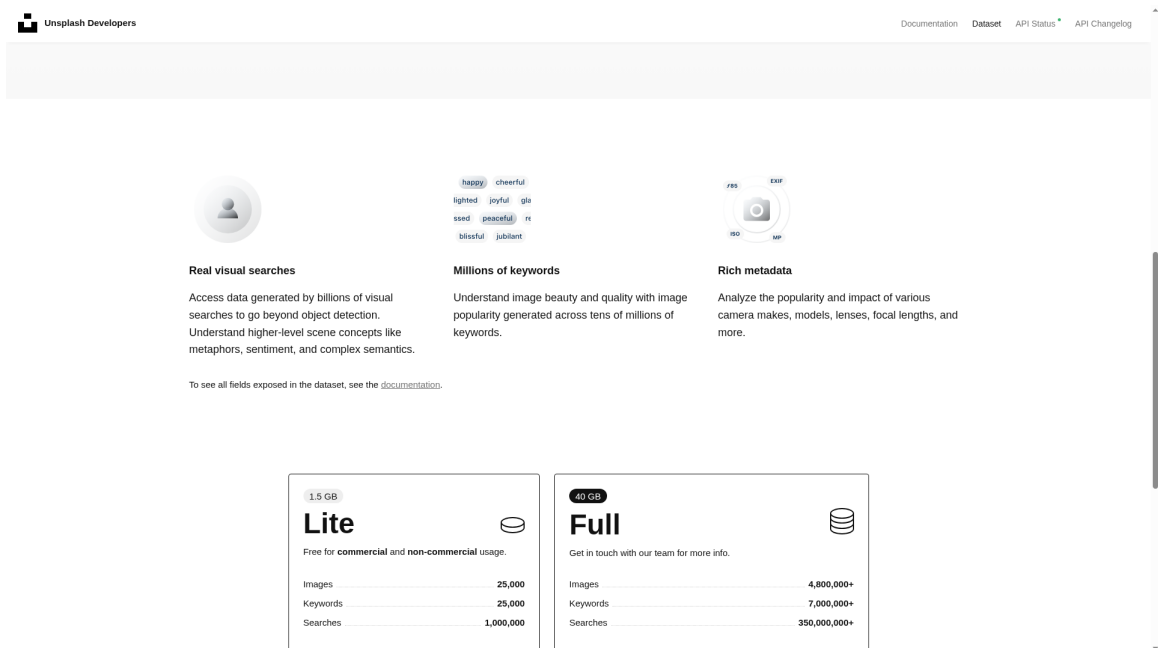

The AI redirects to the external status page to verify that all systems are operational.
