Workflow Exploration Report

API Documentation and Endpoint Reference

Website: <https://unsplash.com>

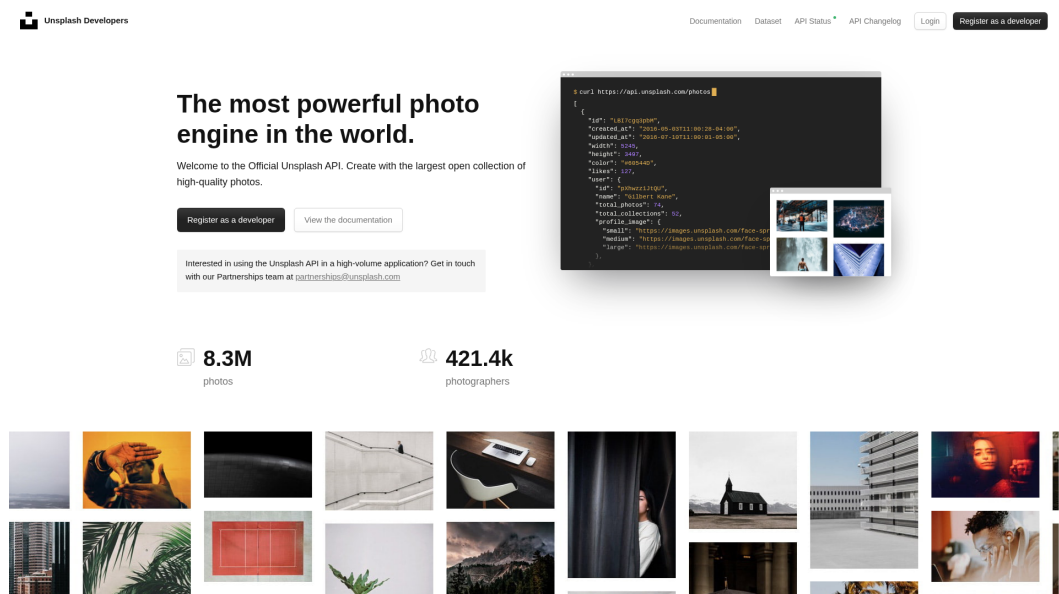

Feature Area: Developer Portal

Goal: Navigate the developer portal to find specific API endpoint documentation and request parameters.

Generated: April 07, 2026 at 09:38 AM

Confidence: 100%

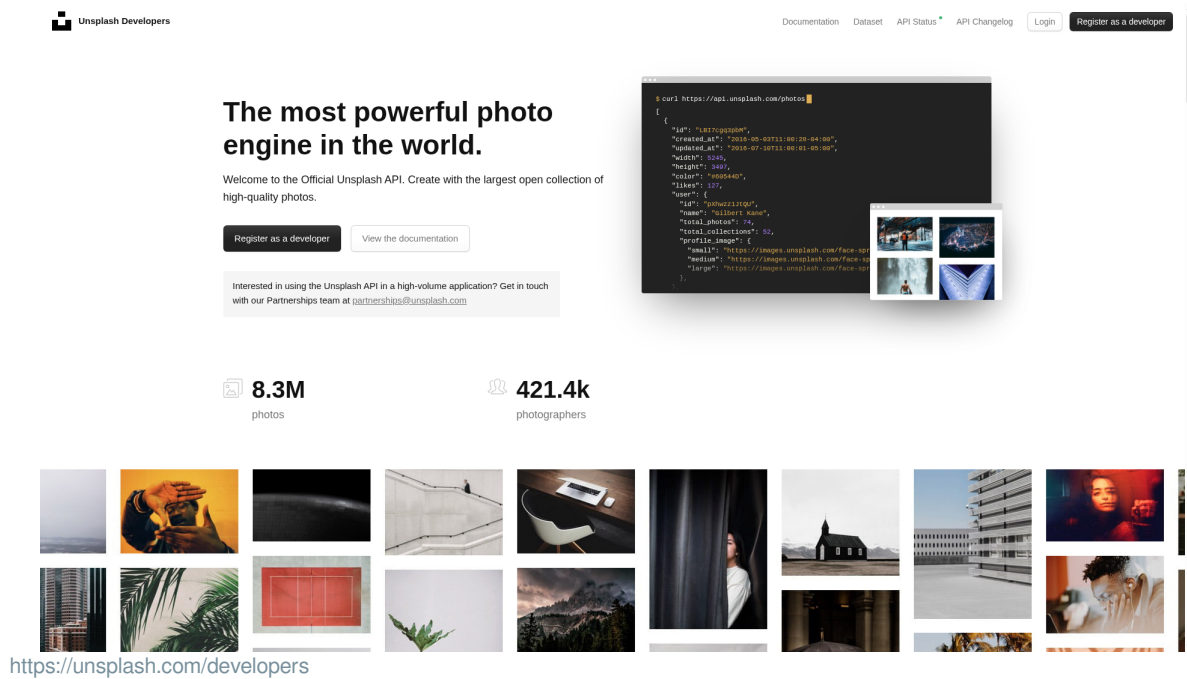

The AI successfully navigated the Unsplash Developer portal to locate the 'Search photos' API documentation. It progressed from the landing page through the main documentation section to reach the specific endpoint details and request parameters.

Step-by-Step Walkthrough

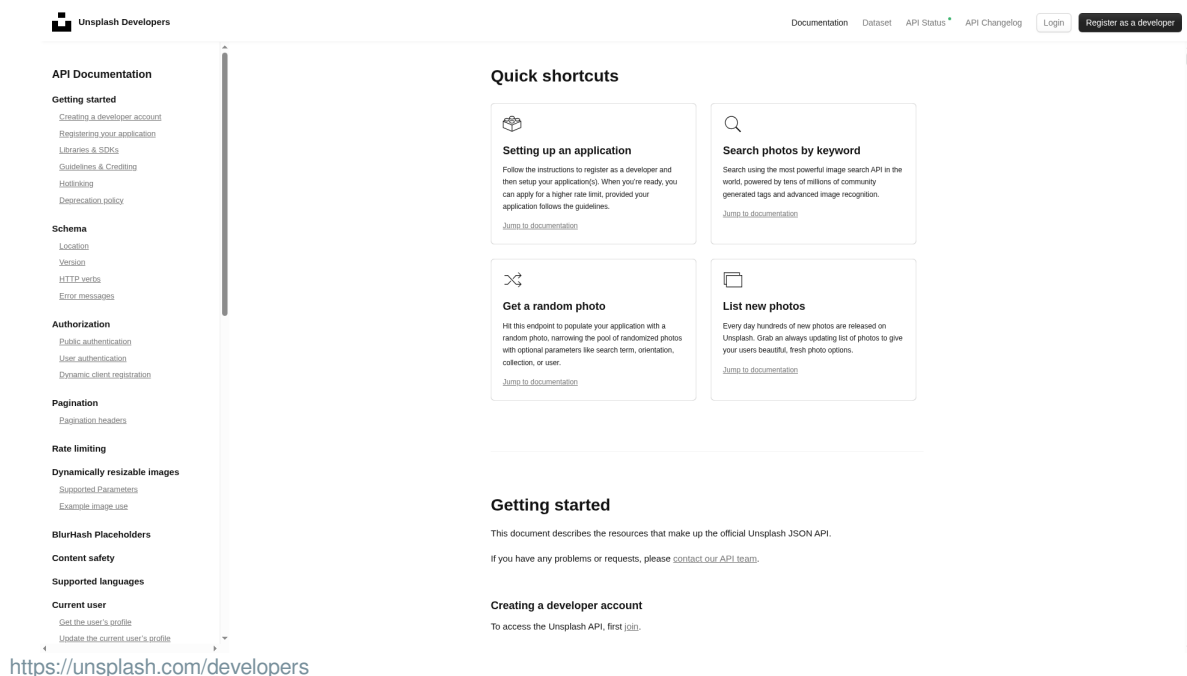

1. Unsplash Developers Landing Page

The AI navigates to the Unsplash Developers portal to begin the documentation search.

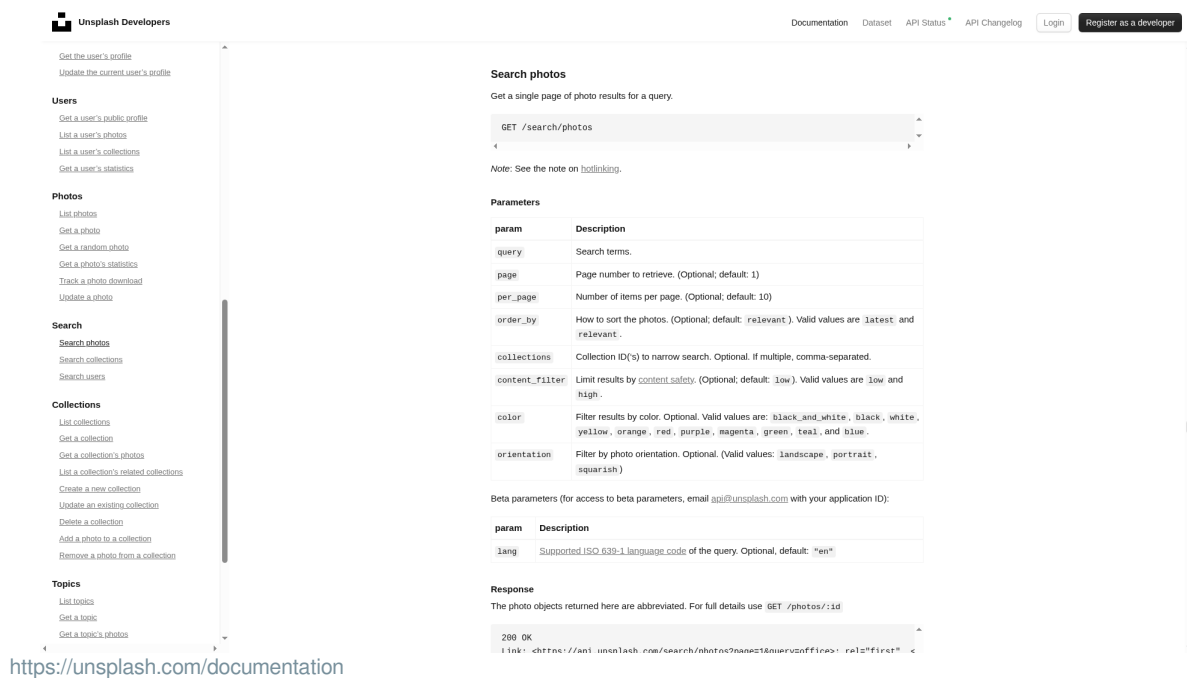

2. Accessing API Documentation

The AI clicks on the documentation link to view the available API resources and guides.

3. Search Photos Endpoint Details

The AI locates and selects the 'Search photos' section, displaying the specific endpoint URL and its request parameters.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: e2e_business_workflow - Complete User Journey	e2e_business_workflow	high

Discovered Workflow: e2e_business_workflow - Complete User Journey

Verify that a user can navigate from the developer landing page to the 'Search photos' API documentation section.

The agent started on the Unsplash Developers landing page, navigated to the main documentation, and successfully located the 'Search photos' endpoint reference.

- Use `page.goto('https://unsplash.com/developers')` as the entry point.
- The 'Search photos' link may trigger a hash-based navigation (`#search-photos`); ensure the page scrolls to the correct section.
- Verify the presence of `GET /search/photos` text after the final click.
