Workflow Exploration Report

API Documentation Endpoint Navigation

Website: <https://unsplash.com>

Feature Area: Developer Platform

Goal: Navigate to specific developer documentation for the Photos endpoint. Success: Endpoint details visible.

Generated: April 07, 2026 at 04:54 AM

The AI successfully navigated the Unsplash Developer portal to locate specific API documentation for the Photos endpoint. It moved from the landing page through the general documentation to the detailed 'Get a photo' section, verifying that endpoint details and parameters are correctly displayed.

Step-by-Step Walkthrough

1. Unsplash Developers Landing Page

The AI starts the workflow on the Unsplash Developers home page.

2. Accessing API Documentation

The AI navigates to the main API Documentation page to begin searching for specific endpoints.

3. Navigating to Photos Section

The AI selects the 'Photos' category from the sidebar to view the available photo-related API endpoints.

4. Viewing Get a Photo Details

The AI successfully locates and displays the documentation for the 'Get a photo' endpoint, including the GET request path and required parameters.

API Documentation Endpoint Navigation

Navigate to specific developer documentation for the Photos endpoint. Success: Endpoint details visible.

The AI successfully navigated the Unsplash Developer portal to locate specific API documentation for the Photos endpoint. It moved from the landing page through the general documentation to the detailed 'Get a photo' section, verifying that endpoint details and parameters are correctly displayed.

- Navigate to <https://unsplash.com/developers>
- Click the 'Documentation' link in the header
- In the left-hand sidebar, click on the 'Photos' section
- Click on 'Get a photo'
- Verify the 'GET /photos/:id' endpoint description and parameter table are displayed.
