Workflow Exploration Report

Download Lite Dataset

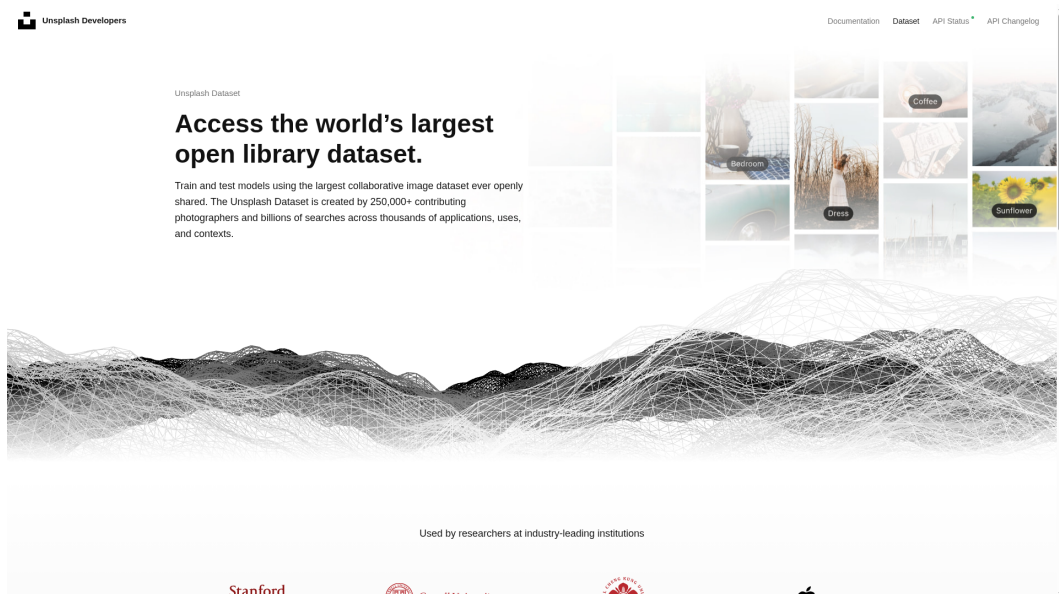

Website: <https://unsplash.com>

Feature Area: Unsplash Dataset

Goal: Access the Unsplash dataset page and download the Lite version. Success: Download of the 1.5GB zip file is triggered.

Generated: April 07, 2026 at 07:54 AM

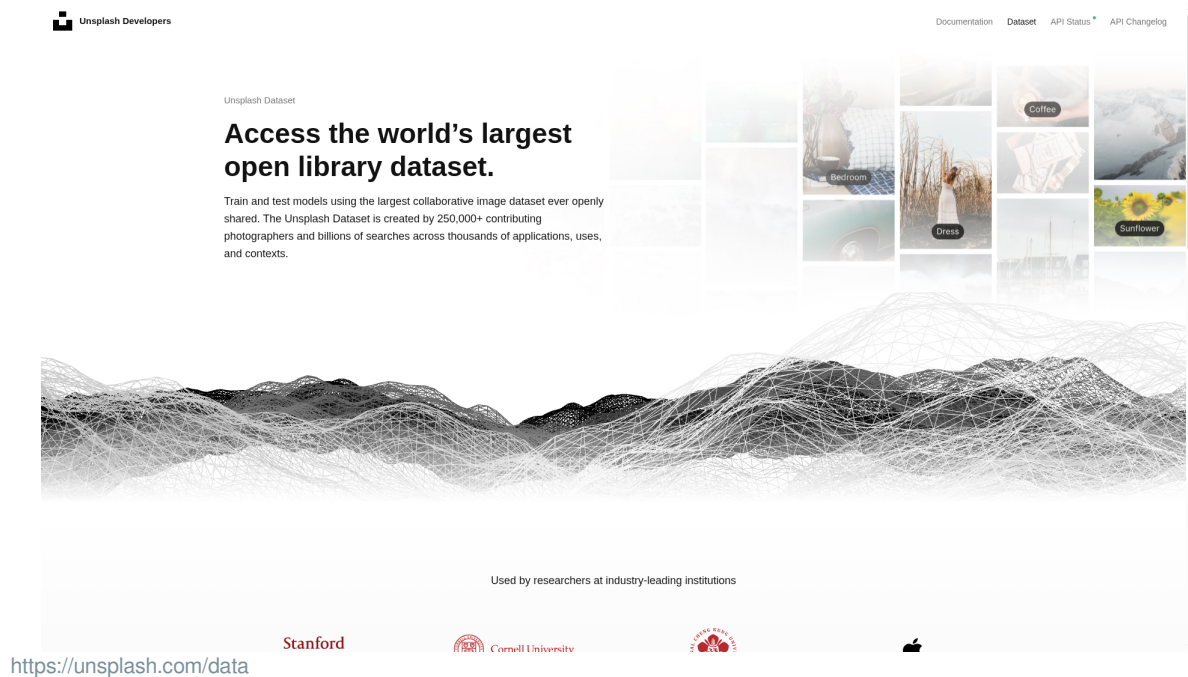

The AI successfully navigated to the Unsplash Dataset page and identified the available data packages. It explored the technical documentation on GitHub and the external request form for the full dataset before triggering the 1.5GB Lite version download.

Step-by-Step Walkthrough

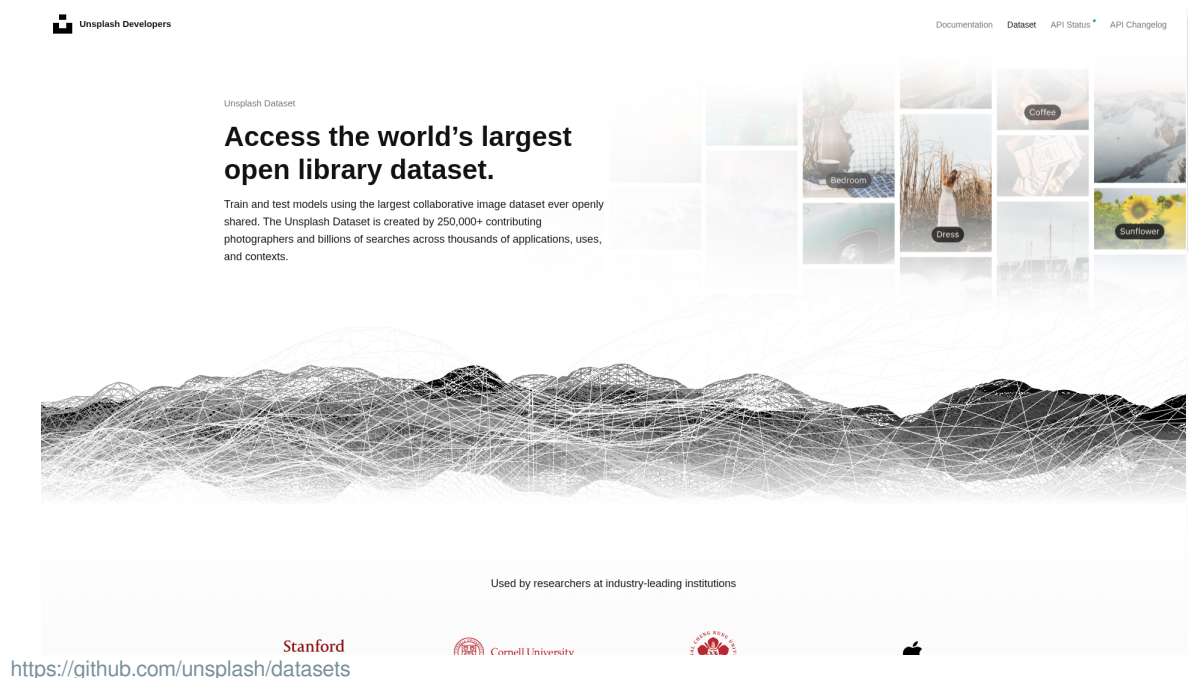

1. Navigate to Unsplash Dataset Page

The AI navigates to the Unsplash Developers portal to access the open library dataset landing page.

2. Review Technical Documentation

The AI redirects to the official GitHub repository to verify the dataset's technical specifications and schema.

3. Locate Lite Dataset Download

The AI scrolls to the dataset selection area to locate the 1.5GB Lite version intended for commercial and non-commercial use.
