Workflow Exploration Report

Blog Category Filtering and Article Sharing

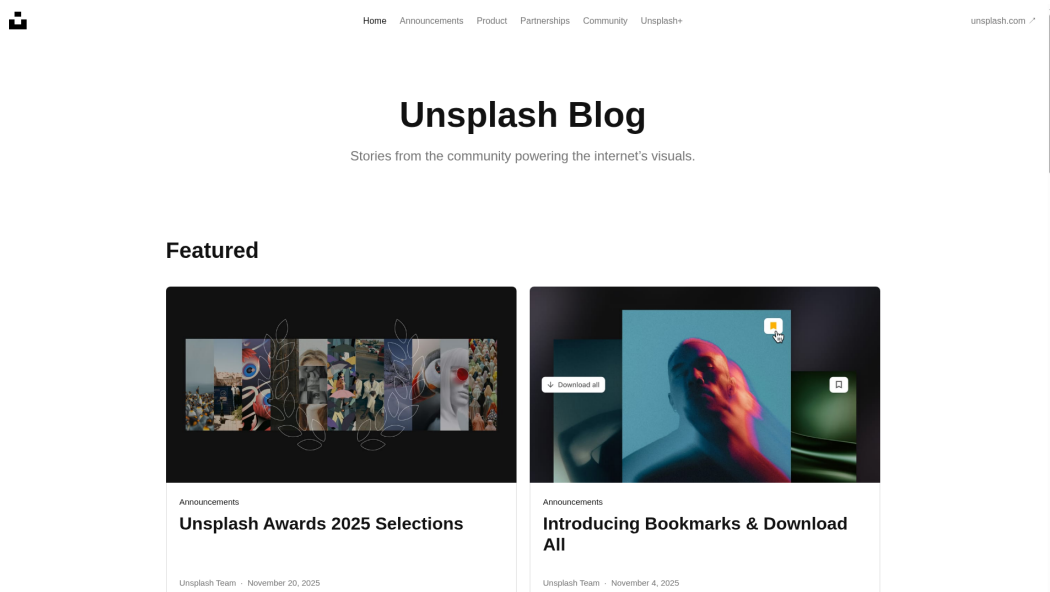

Website: <https://unsplash.com>

Feature Area: Community Blog

Goal: Filter blog posts by category and share an article on social media. Success: Filtered list is shown and share intent is triggered.

Generated: April 07, 2026 at 07:54 AM

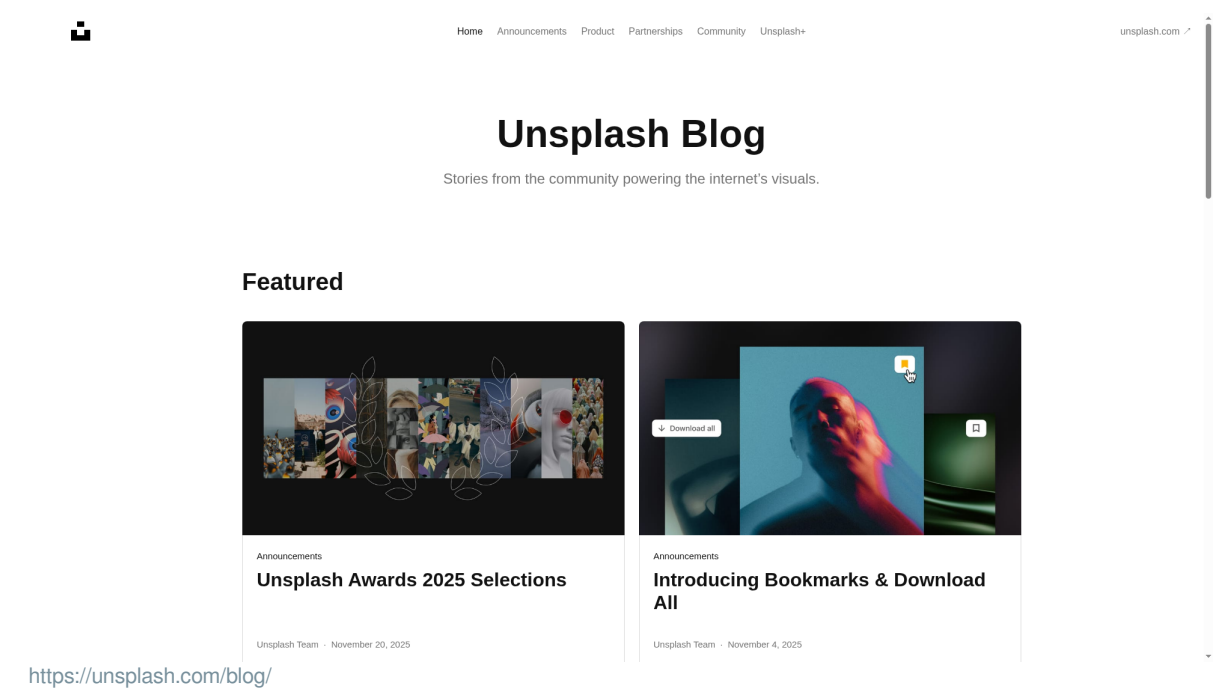

The AI successfully navigated the Unsplash blog, filtered articles by the 'Announcements' category, and accessed a specific featured article. It also demonstrated the site's pagination capabilities by scrolling to the bottom of the feed and successfully loading additional blog posts.

Step-by-Step Walkthrough

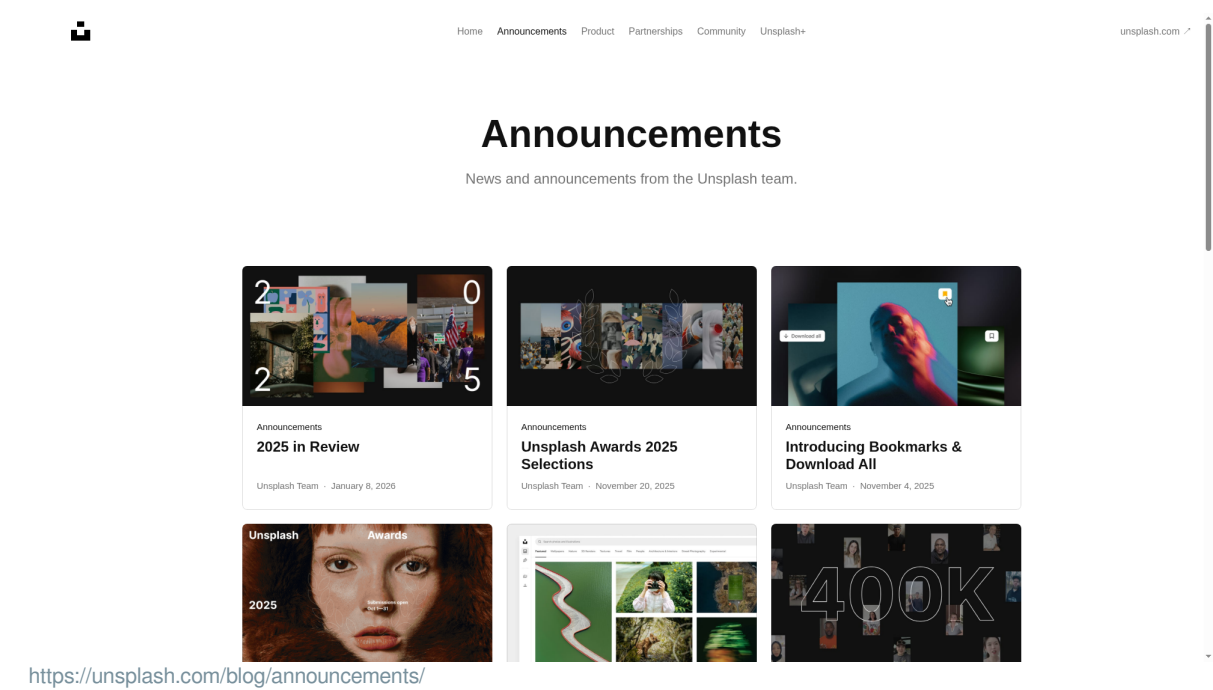

1. Navigate to Unsplash Blog

The AI navigates to the Unsplash Blog homepage to begin the workflow.

2. Filter by Announcements

The AI clicks on the 'Announcements' category filter to narrow down the list of blog posts.

3. Open Featured Article

The AI selects and clicks on the 'Unsplash Awards 2025 Selections' article to view its details.
