Workflow Exploration Report

Topic Navigation and Discovery

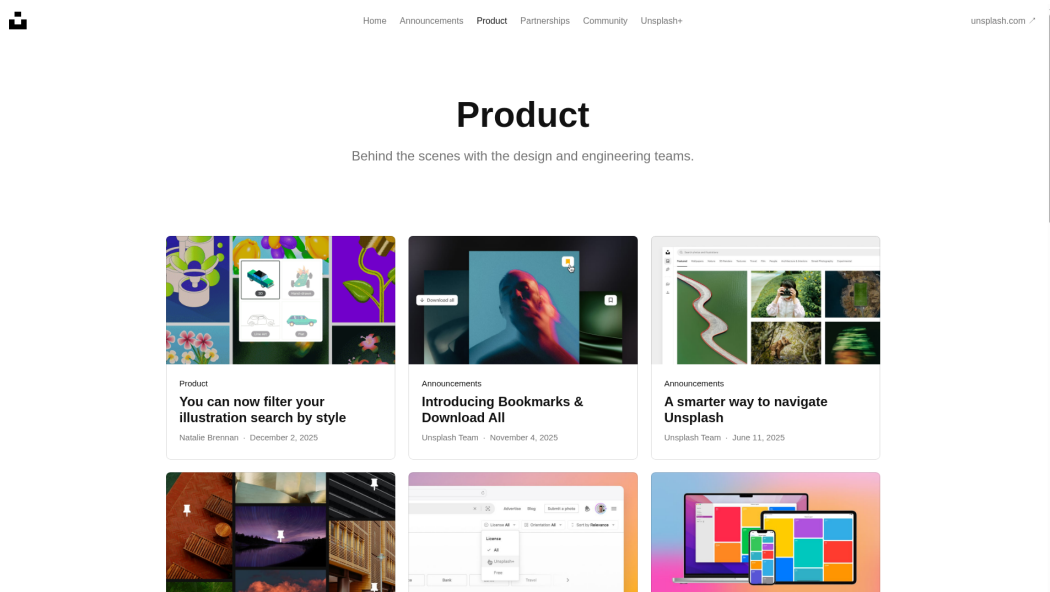

Website: <https://unsplash.com>

Feature Area: Browsing & Discovery

Goal: Browse photos by category and verify infinite scrolling. Success: New content loads on scroll.

Generated: April 07, 2026 at 04:54 AM

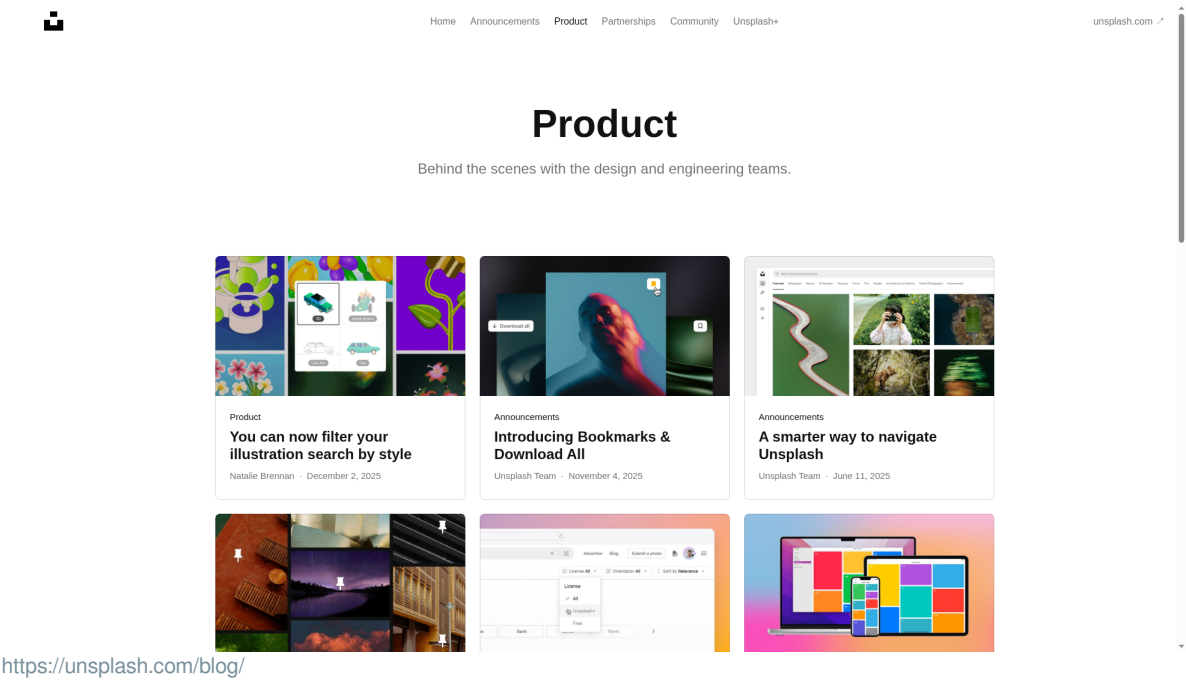

The AI navigated to the Unsplash Blog and explored various content categories including Product, Announcements, and Community. It verified that category filters update the content feed correctly and confirmed the presence of pagination via the 'Load more posts' button.

Step-by-Step Walkthrough

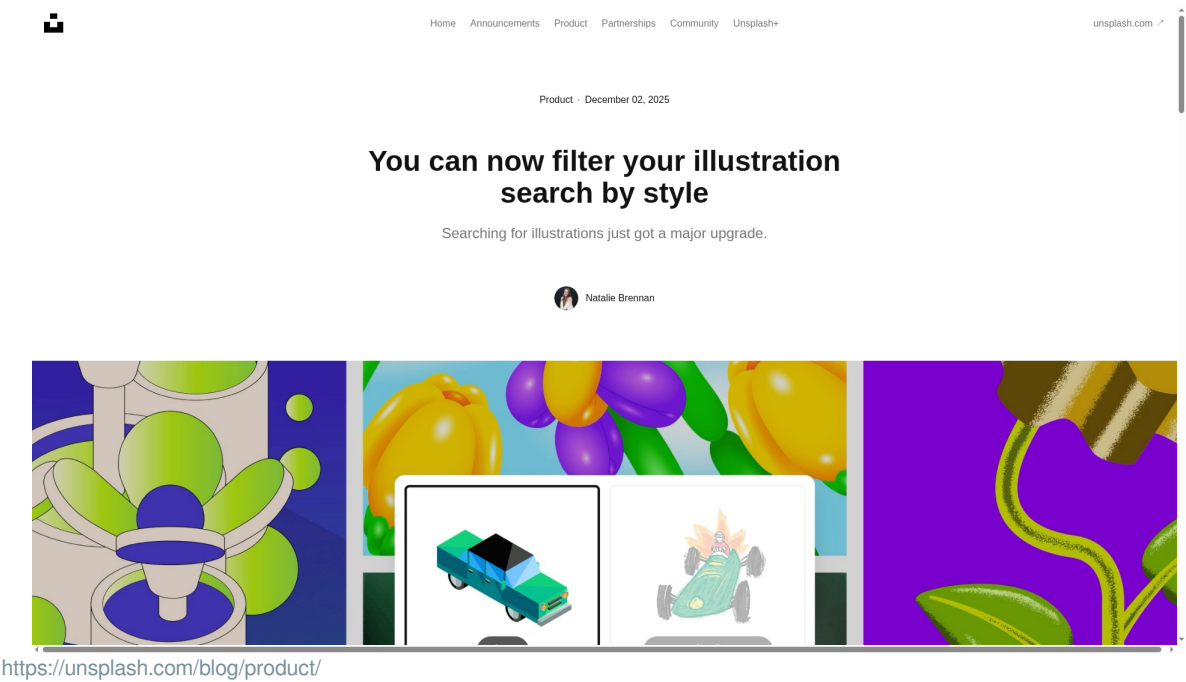

1. Navigate to Unsplash Blog

The AI navigates to the Unsplash Blog home page to begin the discovery workflow.

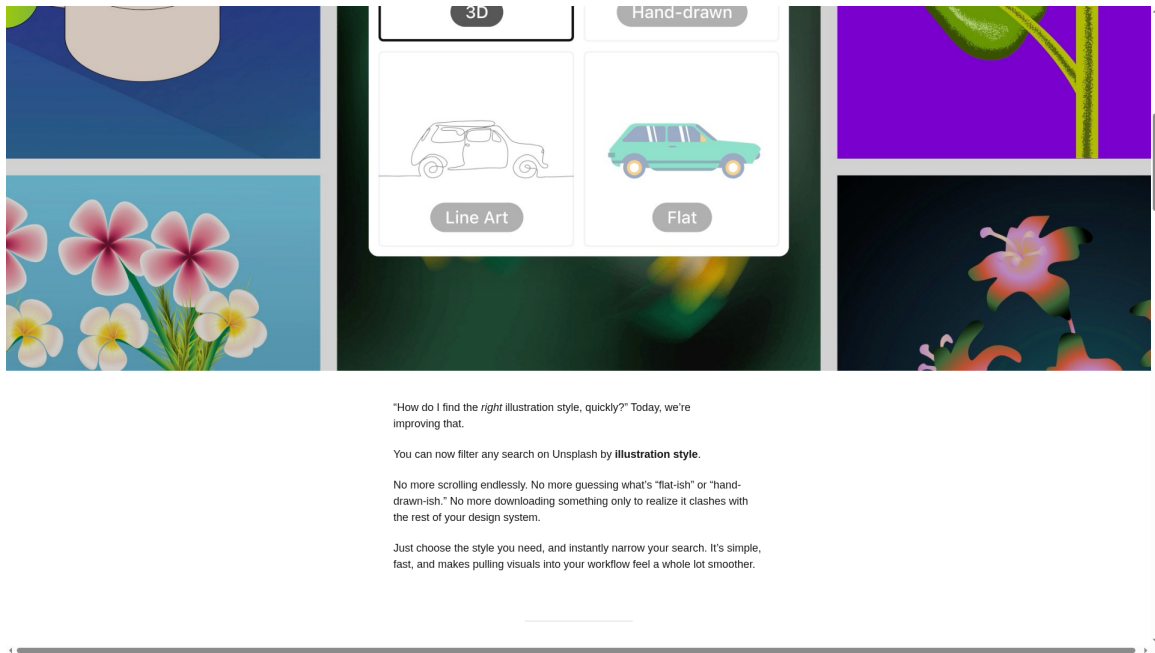

2. Filter by Product Category

The AI selects the 'Product' category from the navigation bar to filter posts related to design and engineering.

3. View Blog Post Content

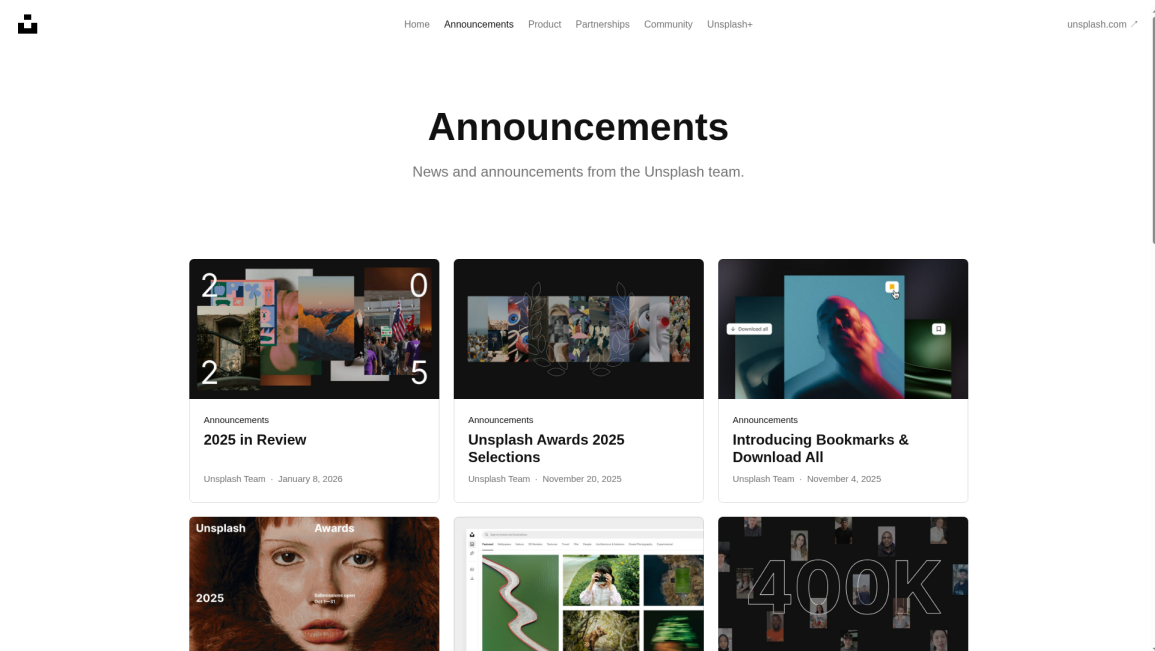

The AI clicks on a specific blog post to verify that the full article and its visual assets load successfully.

Topic Navigation and Discovery

Browse photos by category and verify infinite scrolling. Success: New content loads on scroll.

The AI navigated to the Unsplash Blog and explored various content categories including Product, Announcements, and Community. It verified that category filters update the content feed correctly and confirmed the presence of pagination via the 'Load more posts' button.

- Navigate to <https://unsplash.com>
- In the top navigation bar (below the search bar), click on a topic like 'Wallpapers' or 'Nature'
- Scroll down the page to the bottom of the initial grid
- Verify that more photos load automatically (infinite scroll)
- Click the 'Submit a photo' button in the top right header to verify the contribution entry point.
