Workflow Exploration Report

Blog Content Exploration

Website: <https://unsplash.com>
Feature Area: Unsplash Blog
Goal: Filter blog posts by category and read a specific article. Success: Article page loads.
Generated: April 07, 2026 at 04:54 AM

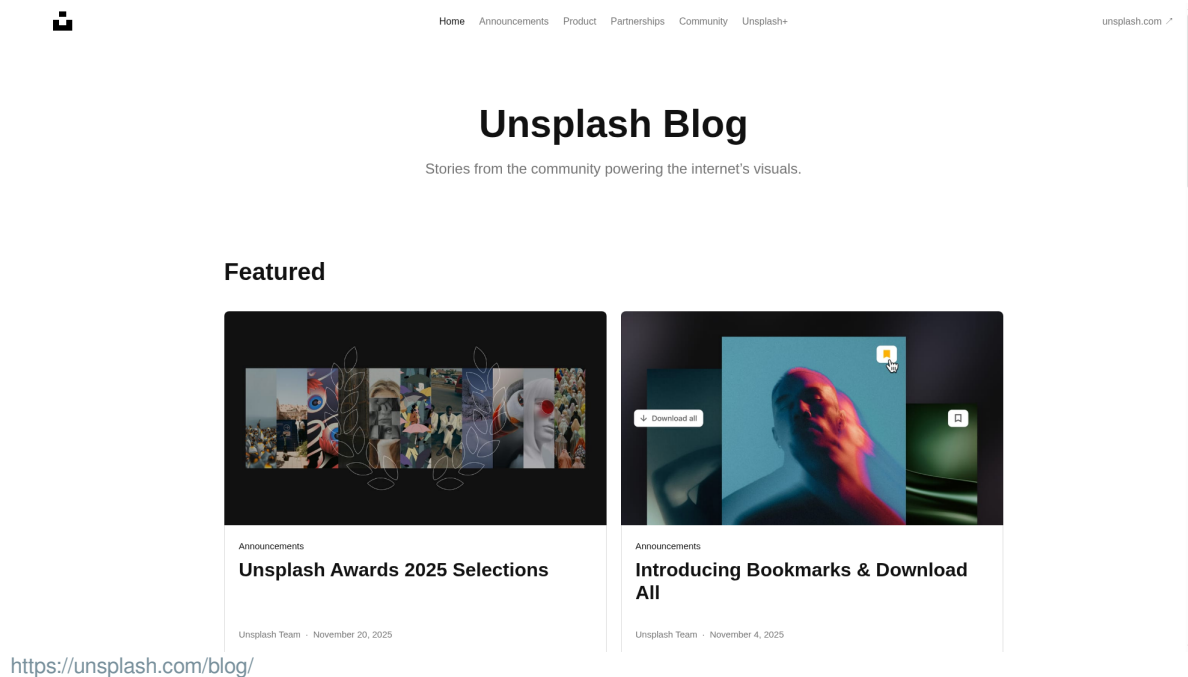

The AI successfully navigated the Unsplash Blog, demonstrating the ability to filter content by various categories such as Product, Announcements, and Partnerships. It successfully loaded a specific article to verify content visibility and explored the page's pagination features.

Step-by-Step Walkthrough

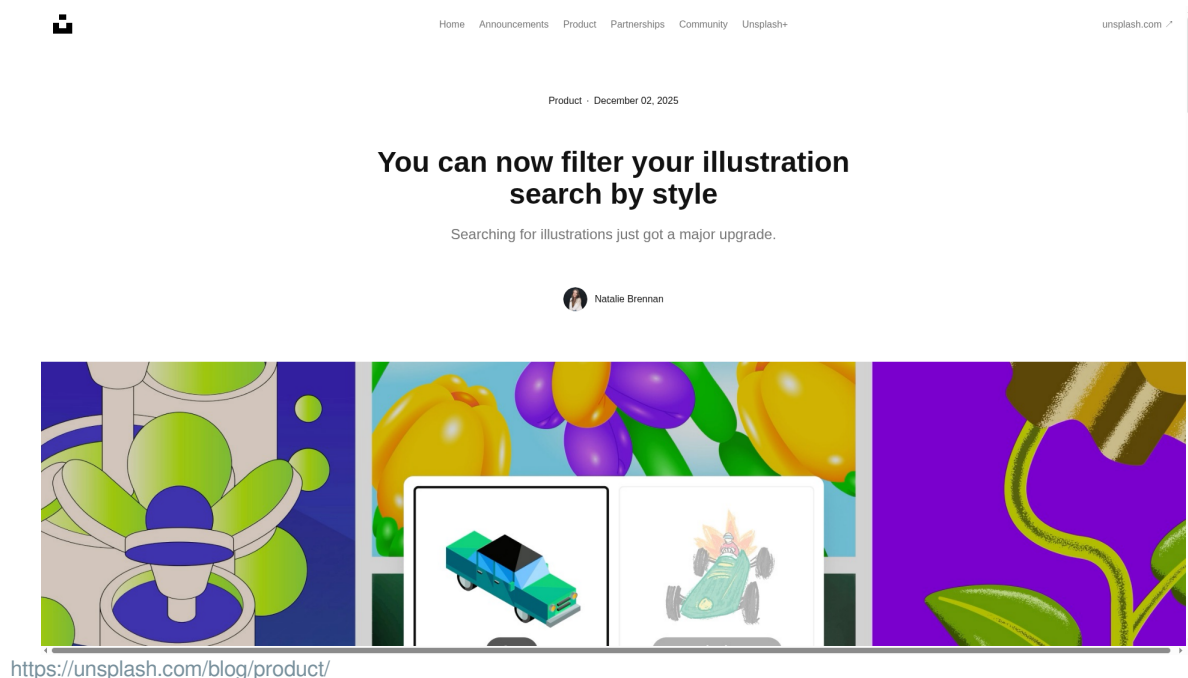

1. Navigating to the Unsplash Blog

The AI starts by landing on the main Unsplash Blog homepage to begin content exploration.

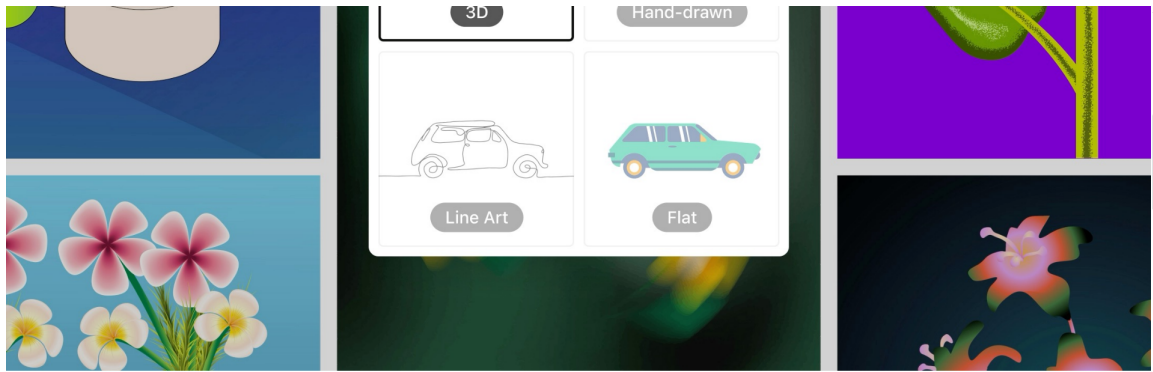

2. Filtering by Product Category

The AI selects the 'Product' category from the navigation menu to filter the blog feed.

3. Opening a Specific Article

The AI clicks on a featured blog post to load the full article and verify its content.

"How do I find the right illustration style, quickly?" Today, we're improving that.

You can now filter any search on Unsplash by **illustration style**.

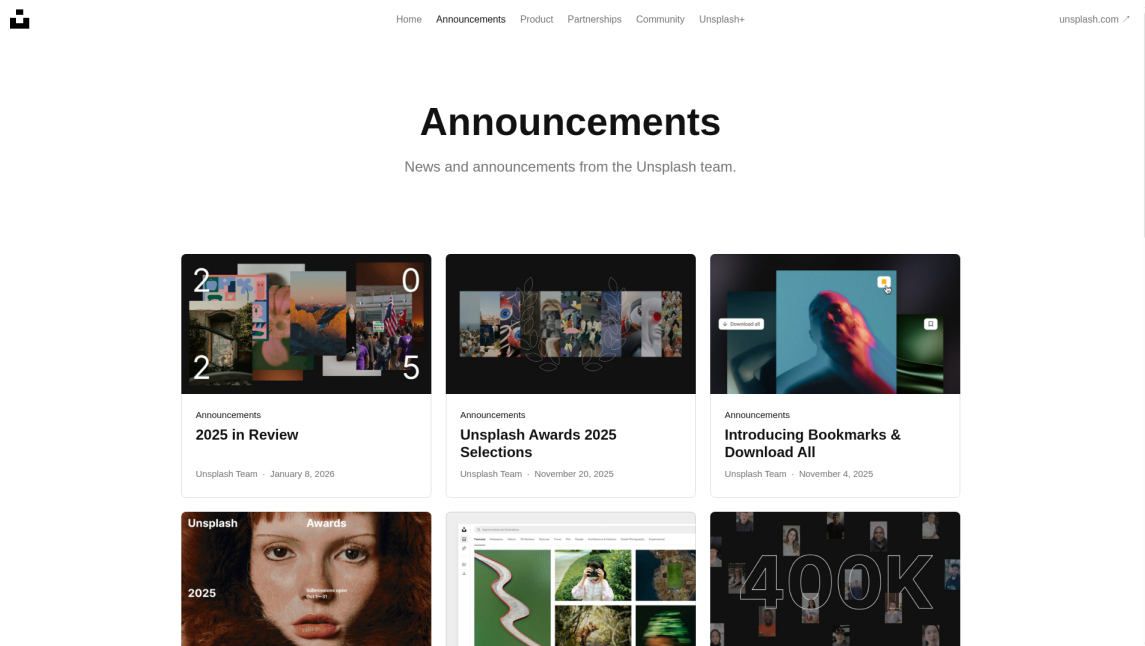

No more scrolling endlessly. No more guessing what's "flat-ish" or "hand-drawn-ish." No more downloading something only to realize it clashes with the rest of your design system.

Just choose the style you need, and instantly narrow your search. It's simple, fast, and makes pulling visuals into your workflow feel a whole lot smoother.

4. Exploring the Announcements Category

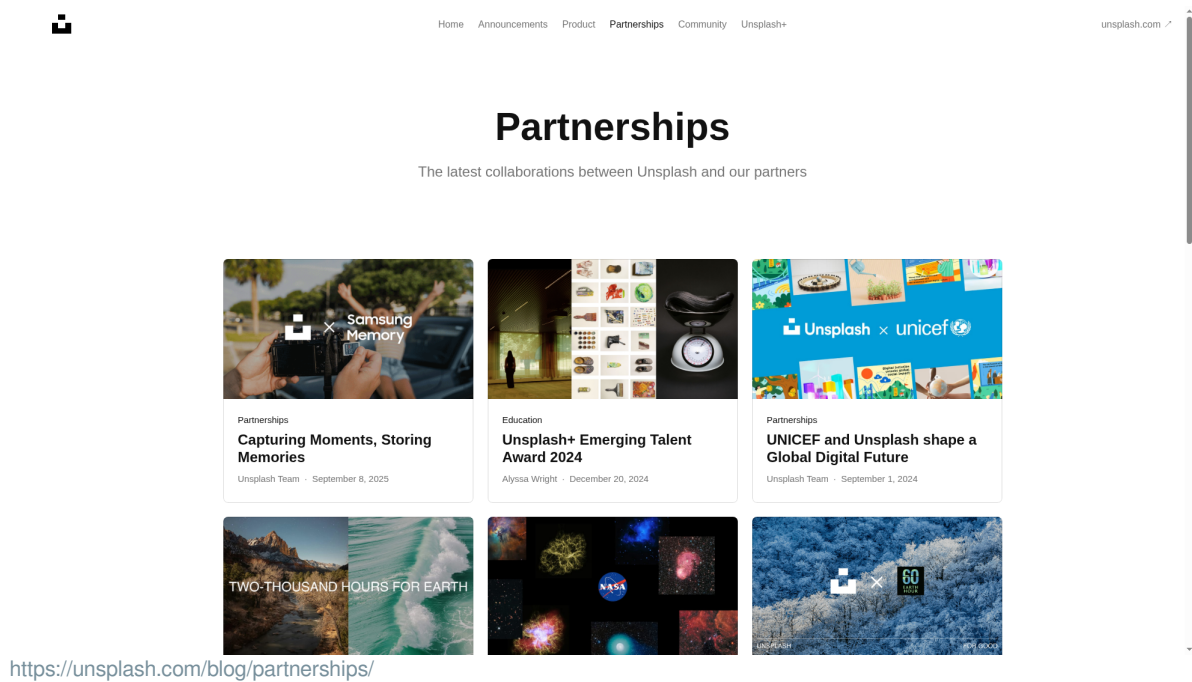

The AI navigates to the 'Announcements' section to view the latest news from the Unsplash team.

<https://unsplash.com/blog/announcements/>

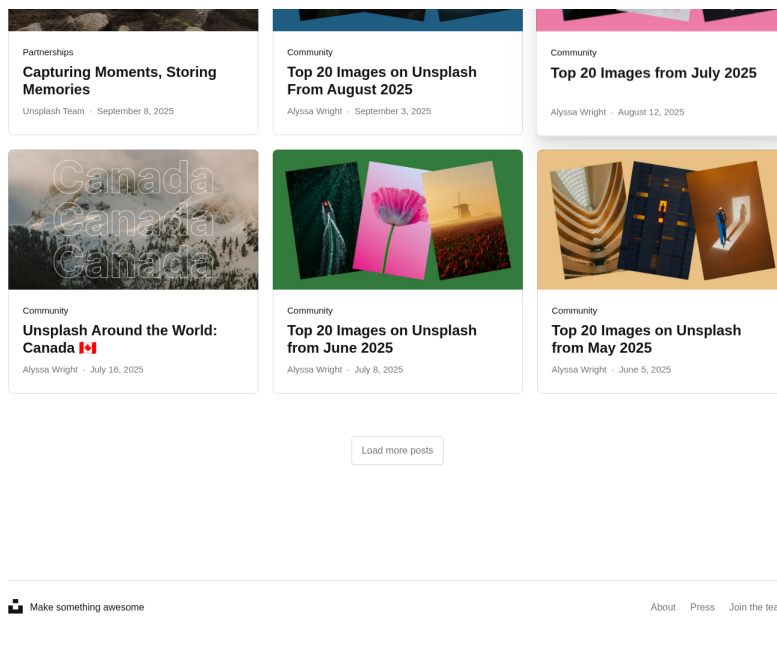

5. Viewing Partnership Stories

The AI explores the 'Partnerships' category to see collaborations between Unsplash and its partners.

6. Reaching the Pagination Footer

The AI scrolls to the bottom of the feed to verify the presence of the 'Load more posts' button.

Blog Content Exploration

Filter blog posts by category and read a specific article. Success: Article page loads.

The AI successfully navigated the Unsplash Blog, demonstrating the ability to filter content by various categories such as Product, Announcements, and Partnerships. It successfully loaded a specific article to verify content visibility and explored the page's pagination features.

- Navigate to <https://unsplash.com/blog/>
- Click on the 'Product' category in the top navigation menu
- Click on the title of the first blog post (e.g., 'You can now filter your illustration search by style')
- Verify the full article page loads with the correct title and body content
- Scroll to the bottom and verify the 'Unsplash' logo link in the footer.
